Magnificent beauty of nature

Various activities and experiences around Kullasmarina.

During the summer time Kullasmarina is surrounded by a pristine lake side environment providing many activities – fishing, kayaking, and boating. The perfect place to explore the Finnish summer nature is visiting the Päijänne National Park – a nature reserve area located across more than 50 of the lake's islands.

To end the day "the finnish way", you can bind your own birch-vasta and have a bonfire barbecue while waiting the smoke sauna to warm up. Then enjoy a relaxing steam of sauna and swimming in the lake in beautiful evening sun.

During the winter season Kullasmarina offers visitors snow filled activities – ice fishing trips, lighted cross country ski tracks, snow shoe safaris, snow mobile safaris, husky dog sledging, and down hill skiing. Kullasmarina in Padasjoki has three down hill ski centres within close reach.
